

Small Ensemble **Technical Requirements**

HOUSE SOUND SYSTEM

At the discretion of the band's audio engineer, if a house sound system exists, it may be preferable to use it to augment the audio equipment the band carries. Our audio engineer may contact the house audio engineer in advance of the performance date to discuss requirements/availability.

SOUND

If sound system is utilized, the ensemble requires a closed-house sound check one hour prior to performance.

LIGHTING REQUIREMENTS

Overhead white light should be suitable to read music and make all band members visible to the audience.

MUSIC STANDS

If enough stands are available at the performance hall (at least six, no wire stands), please inform the band's POC. If none are available, the ensemble will bring their own.
